WING ORDER 4400.26

From: Commanding General, 2d Marine Aircraft Wing  
To: Distribution List  
  
Subj: 2D MARINE AIRCRAFT WING (MAW) UNIT ISSUE FACILITY (UIF)  
MANAGEMENT PROCEDURES  
  
Ref: (a) II Marine Expeditionary Force (MEF) Order 4400.4a  
  
Encl: (1) II MEF UIF Tally Sheet  
(2) Individual Receipt for UIF Equipment

1. Situation. The UIF issues equipment on UIF accounts, similar to Consolidated Memorandum Receipts (CMRs). While the UIF still supports extreme cold and hot weather training, the UIF's priority is to support forces deploying for contingency/combat operations. To date, the inspection staff organic to the 2d MAW G-4 has identified the following negative trends: units are not conducting quarterly UIF CMR reconciliations, improperly turning over accounts to new Responsible Officers (ROs), returning equipment to the correct RO, obtaining drop letters for equipment lost on deployments, returning equipment to the UIF in the allotted timeframe, or creating/maintaining individual issue receipts. These oversights have resulted in 2d MAW losing accountability for a substantial amount of UIF equipment.

2. Mission. This order amplifies the policy set forth in reference (a) while providing specific instruction for improving UIF management procedures as they pertain to 2d MAW.

3. Execution

a. Commander's Intent and Concept of Operations

(1) Commander's Intent

(a) All Unit Commanders will ensure that they adhere

DISTRIBUTION STATEMENT A: Approved for public release;  
distribution is unlimited.

to the policy set forth by reference (a) through quarterly reconciliations of their UIF accounts, reconciliation of their accounts upon redeployment to CONUS, and the return of all UIF equipment within 45 days of redeployment.

(b) Excesses equipment will be returned to UIF, but will be accounted for locally with certification by UIF personnel during the turn-in process utilizing enclosure (1).

(2) Concept of Operations. In order to correct current practices and verify actual on hand quantities, UIF account reconciliations require the physical turn-in of all UIF equipment along with the timely submission of Requests for Investigation (RFI) and adjustment letters for equipment not returned to the UIF. This process will allow 2d MAW to mitigate significant losses, thereby reducing the potential fiscal liability of its subordinate units.

b. Subordinate Element Missions

(1) Marine Aircraft Group (MAG)

(a) Assign an appropriate RO who will assume cognizance for all draws, storage, issues and returns of UIF equipment for subordinate units with the exception of the Marine Wing Support Squadrons (MWSS). The MWSSs will assign their own ROs and maintain their own independent UIF accounts.

(b) A Responsible Individual (RI), as outlined in reference (a), will be identified by MAG subordinate units to assist with the issue and return of UIF equipment from/to the MAG as well as the accountability for this equipment while the subordinate unit is deployed. However, separate UIF accounts for these subordinate units will not be created; nor should UIF equipment be stored at the subordinate unit location longer than is necessary to issue the equipment to the individual Marines and Sailors.

(c) The MAG RO, along with subordinate RIs, will use enclosure (2) to issue equipment to individuals. These receipts will be retained by the RO and separated by unit during subordinate unit deployments. Upon redeployment of a subordinate unit, RIs will collect their unit's UIF receipts from their parent MAG RO. The RI will use these receipts to collect and inventory UIF equipment from their individual Marines and Sailors. Deficiencies will be annotated on the individual receipt and a copy will be attached to the required missing gear

WgO 4400.26  
AUG 27 2012

statement. These receipts will be returned to the MAG RO along with the UIF equipment within three weeks of redeployment. These individual receipts will be retained by the RO until the UIF account is cleared and any outstanding balance has been adjudicated. The MAG RO will re-inventory the subordinate unit equipment and tally the inventory totals by using enclosure (1). Equipment will be returned to the UIF by the MAG RO within 45 days of subordinate unit redeployment per reference (a).

(d) Copies of the original CMR and the 1348s generated by UIF will be retained. Since UIF does not annotate excess returns in their database or on the final CMR, these documents are the only method for tracking excess returns or "gains".

(e) The aforementioned processes and procedures also pertain to the MWSS's.

(2) Marine Aircraft Control Group (MACG)

(a) MACG-28 and all of its subordinate units will each assign an RO and maintain independent UIF accounts.

(b) All guidance set forth in reference (a) must be followed.

(c) The aforementioned processes and procedures also pertain to the MACG and its subordinate units.

(3) Marine Wing Headquarters Squadron (MWHS)

(a) MWHS-2 will assign an RO and maintain an independent UIF account.

(b) All guidance set forth in reference (a) must be followed.

(c) The aforementioned processes and procedures also pertain to the MWHS.

4. Administration and Logistics. All guidance set forth in reference (a) applies.

WgO 4400.26  
AUG 27 2012

5. Command and Signal

- a. Command. This Order is applicable to 2d MAW.
- b. Signal. This order is effective the date signed.

  
G. M. WALTERS

#### **RUGGED ALL TERRAIN (RAT) BOOTS**

NOTE 1:	FAILURE TO FOLLOW THESE GUIDELINES WILL ONLY DELAY THE PROCESS OF GETTING BOOTS THAT FIT PROPERLY IN MOST CASES.
NOTE 2:	IN SOME CASES WE MUST ORDER THESE BOOTS FOR ISSUES, WHICH WILL REQUIRE PATIENCE ON THE PART OF THE UNIT.
NOTE 3:	TO AVOID IMPROPER FIT, FOLLOW THESE NEXT STEPS TO GATHER INFO FROM THE MARINES & SAILORS.
STEP 1:	MAKE SURE THEIR BOOT SIZE INCLUDES THE <u>WIDTH</u> (N, R, W, OR XW).
STEP 2:	IF THE MARINE OR SAILOR KNOWS THEIR RAT BOOT SIZE ENTER THAT SIZE. IF NOT FOLLOW NEXT STEP.

**ENCLOSURE(1)**

STEP 2:	FIND OUT FROM THE MARINE OR SAILOR IF THE BOOTS SIZE THEY PROVIDE COMES FROM A DANNER BOOT IF SO THAT SIZE IS GOOD. IF THE BOOT SIZE COMES FROM ANOTHER MANUFACTUER IN MOST CASES YOU MUST GO UP A 1/2 (HALF) SIZE (EXAMPLE 7R WOULD BE A 7.5R THAT IS NEEDED).			
STEP 3:	NOW ENTER <u>THAT NEW SIZE</u> ON THE TALLY SHEET AND THE BOOT SHOULD FIT THAT MARINE OR SAILOR IN MOST CASES.			
STEP 4:	KEEP THE INFORMATION ON HAND FOR EACH MARINE OR SAILOR SO WHEN IT COMES TIME TO ISSUE THESE BOOTS AT THE UNIT THAT MARINE OR SAILOR RECIEVES THE BOOT THAT WAS ORDERED FOR THEM.
